## **TF Vector Control- Daily Report**

**Sept 12, 2017: 1230 (CDT)**

### **Current Objective Areas:**

Sprays operations on 11 Sept were conducted over Chambers, Orange, and Jefferson Counties in Branch II. On 12 Sept the objective areas will include Chambers, Jefferson, and beginning work over a large area in Brazoria Co.

- "Spray 07" covered 100,348 acres using 540 gallons of Naled on 11 SEP.
- "Spray 04" covered 98,842 acres using 553 gallons of Naled on 11 SEP.
- 494,563 acres have been sprayed since 09 SEP with Orange County now complete.
- **Chambers, Jefferson and Brazoria Counties** will be sprayed on 12 SEP.
- The **USDA official memorandum** certifying organic farmers was signed on 11 SEP and was pushed to County Officials by TX DSHS.
- There are three counties (Matagorda, Fort Bend and Galveston) that are still not yet committed to Federal spraying, but DSHS estimates that they will opt in shortly and I have explained the importance of finalizing the counties for a final acreage estimate for logistical planning.
- the 910th MASS is expecting a **4th C-130 aircraft and additional crew to arrive on 12 SEP** which will tentatively start flying a third mission each night on 13 SEP.
- the 910th MASS is also analyzing ways to maximize mission aircraft and systems to add to the nightly acreage sprayed.

Attached are:

- 1) MA 32 Vector Control Progress Map for DoD and Contractor Spraying
- 2) Vector Control Schedule
- 3) USDA Memorandum Regarding Organic Farmers Certification Status

Next key times:

- 1) 12 SEP - Additional C-130 and crew tentatively scheduled to arrive at Kelly Field
- 2) 13 SEP - Federal TF Vector Conference Call at 1500 (change in time and frequency)**
- 3) 13 SEP - Additional aircraft tentatively begins flying spraying mission for a total of **3 x C-130 per night**
